Grant Opportunities & News You Can Use

Hello, faculty,

Congratulations on making it to the end of the semester! We've been impressed with how much grace and good humor everyone has brought to this situation. Before jumping into our offerings, I want to pause and thank one of the hidden forces that keeps our office running—our work study student, Janis McAllister. Janis is graduating this year with a BA in English. She has worked for us for the last three years and has been completely invaluable. She has taken care of a thousand tiny tasks that people rarely see but keep our team afloat, from updating deadlines in newsletter, to fixing the links in the faculty handbook, to doing preliminary research into faculty funding prospects. From all of us on the IFSR team: Thank you, Janis. We will miss you and wish you all the best.
Since the abnormal is now the new normal, this month's newsletter is turning our attention back to some non-Covid opportunities and topics. For our Featured Funder, we are profiling the Radcliffe Institute of Advanced Studies and its founder, Polly Bunting-Smith, who once (delightfully) referred to the loss of women in the workforce as "a prodigious national extravagance." For our Sage Advice column, we are rerunning an old classic, "How the Barnard Sponsored Research Office Can Help." We've been meeting with a lot of new faculty recently, so it seemed like a good time to revisit the topic and remind you that we are also tracking COVID-19 opportunities.

We have a few news stories, including one about a professor at Georgia Tech who flubbed her NSF paperwork and wound up with two felonies.

After that, be sure to check out upcoming grant opportunities. For the scientists, we want to highlight the Beckman Young Investigators Award, which is available to early-career faculty in the chemical and life sciences. Historically, we have not been eligible to apply to the Beckman Young Investigators Fellowship, but they recently changed eligibility criteria, making it an open call. It is due August 3, 2020.

As always, if you need assistance finding grants or beginning an application, please feel free to email any of the members of the Institutional Funding and Sponsored Research team.

Radcliffe Institute for Advanced Study at Harvard

The real problem facing women, Mary Ingraham Bunting-Smith complained in a 1961 article in *Time*, was the persistent "climate of unexpectation" that surrounded them. "Adults ask little boys what they want to do when they grow up. They ask little girls where they got that pretty dress. We don't care what women do with their education. Why, we don't even care if they learn to be good mothers." At the time of the interview, Bunting was only one year into what would become a twelve year tenure as President of Radcliffe College, and had just established the Radcliffe Institute for Advanced Study to halt the exodus of highly talented, educated women from the workforce—a loss that she acerbically described as a "prodigious national extravagance."

Bunting, who went by Polly, was born in 1910 in Brooklyn, NY. Her father worked as a lawyer, while her mother served as the head of the YWCA and helped found the United Service Organization, (USO). Bunting attended Vassar College and graduated in 1931, before positively whizzing through her graduate education at the University of Wisconsin-Madison, which awarded her a master's degree in agricultural bacteriology in 1932 and a PhD in 1934. In 1937 she married Henry Bunting, who went on to teach pathology at Yale University School of Medicine. Bunting researched and taught part-time while raising their four children until, in 1954, her husband died unexpectedly of a brain tumor.

Yale, where Bunting was working at the time, refused to entertain the idea of hiring a woman full time, so Bunting, now a widow with four children, took a job first as Dean of Douglass College at Rutgers, then, in 1960, as President of Radcliffe. While at Radcliffe, Bunting transformed the relationship between Radcliffe and Harvard. During her tenure, Radcliffe students began receiving joint degrees with Harvard and the Radcliffe Graduate School merged with Harvard's.

The Radcliffe Institute for Advanced Study was renamed the Mary Ingraham Bunting Institute in 1978, and then returned to its original name and expanded in 1999 when Radcliffe and Harvard formally merged. Today the Radcliffe Institute for Advanced Studies at Harvard is open to men and women alike. In addition to serving as a research center for Harvard faculty and graduate students, the Radcliffe Institute for Advanced Studies offers a variety of opportunities for visiting faculty.

The first is the Radcliffe Fellowship Program. "The Radcliffe Fellowship Program awards 50 fellowships each academic year. Applicants may apply as individuals or in a group of two to three people working on the same project. We seek diversity along many dimensions, including discipline, career stage, race and ethnicity, country of origin, gender and sexual orientation, and ideological perspective." **Funding: $77,500, with an extra $5,000 for research. Deadline: TBA; Previously September 2019.**

The Schlesinger Library on the History of Women in America offers other opportunities. Currently, the library **a Mellon-Schlesinger Summer Research Grant**. "The grant will fund up to three eight-week residencies each June–July in 2019, 2020, and 2021 for researchers doing advanced work on gender and suffrage, voting rights, citizenship, or other related topics." **Funding: $15k. Deadline: TBA.**

In addition to the Mellon grant, the Schlesinger Library also offers a dedicated **Oral History Grant**. "The Schlesinger Library invites scholars who are conducting oral history interviews relevant to the history of women or gender in the United States to apply for support of up to $3K." **Deadline: TBA**.

Finally, $3,000 **Research Support Grants** are available to "**scholars** and other serious researchers at any career stage beyond graduate school…who have demonstrated research productivity and whose projects require use of materials available only at the Schlesinger Library." **Deadline: TBA**

Sage Advice for Competitive Proposals

How the Barnard Sponsored Research Office Can Help
First published May 14, 2018 by Kari Steeves. Updated May 25, 2020.

Maybe "Useful Information" would be a better title for this installment aimed to give you a sampling of what we in Barnard Sponsored Research can do for you, our esteemed faculty. We are here to help you accomplish your research and project goals, both inside and outside the classroom and lab. You can use us to lesser or greater degrees in any of the following ways.

Do You Need Funding?
- We regularly meet with faculty, as needed, to gain an understanding of research needs and goals. It's not necessary to wait until you have a fully formed proposal. We can begin with a brainstorming session.
- Provide research on possible funding sources that might suit your project and stage of development. Many funders offer planning grants to enable scholars to build an idea, run a trial, or prepare the groundwork of a potentially more ambitious project.
- As you narrow down the list of opportunities to which you'd like to apply, we can also provide more detailed profiles of specific funders or requests for proposal (RFP).
- Nearly every article we've profiled on this advice page has emphasized the wisdom of having multiple readers preview your draft proposal. We're happy to serve as one of those readers.
- We can work closely with you throughout the application process to help you think through budgets, timelines, and ways to present your work that might align with the funder's or RFP's aims.
- Government agencies and certain other funders sometimes have complex applications. We can help you navigate them.
- We can handle the online submission requirements, such as converting to pdf, after a careful review, and uploading.

After We Click Submit
- Some organizations and agencies engage in a "just in time" process or conversation before formally granting an award. We are available to assist you through that process.

If the News is Good
- Sponsored Research can answer questions about administrative compliance, accounting, and reports to assist faculty in meeting grant requirements in a timely way.
- If we don't have answers to your post-award questions, we can work with the relevant department to find the answers.
- We work with colleagues in Finance and the Provost's Office should post-award problems arise.

At Any Time

Do you have a professional-development related topic you'd like to explore in a workshop? We would be happy to make that happen. Some workshops we have hosted in the past include Grants 101, Financial Management, and an overview of the federal funding landscape.
- We are also open to assisting in any other way we can. Just shoot us an email or give us a call.
- Mark Godwin, Director, Sponsored Research: mgodwin@barnard.edu 212-870-2525.
- Pamela Tuffley, Associate Director, Sponsored Research: ptuffley@barnard.edu 212-870-2526
- Liane Carlson , Institutional Funding Research Officer: lcarlson@barnard.edu 212-870-2524.

We invite you to reach out to us at any point in your funding process. As the advice columns always say, the earlier the better. We love to hear from you!

10 years later: What did scientists learn from the Deepwater Horizon oil spill?
By NSF Staff, Posted on April 10, 2020

"In a paper published in the journal *Nature Reviews Earth & Environment*, WHOI marine geochemists Elizabeth Kujawinski and Christopher Reddy review what they -- and their science colleagues around the world -- have learned from studying the spill over the past decade.

"'So many lessons were learned during the Deepwater Horizon disaster that it seemed appropriate and timely to consider those lessons in a review,' says Kujawinski. 'We found that much good work had been done on oil weathering and oil degradation by microbes, with significant implications for future research and response activities.'

"Adds Reddy, "One of the big takeaways is that the oil doesn't just float and hang around. A huge amount of oil that didn't evaporate was pummeled by sunlight, changing its chemistry. That's something that wasn't seen before, so now we have insight into this process." <<more>>

Working on an NIH Grant Application? Make Sure You Are Using the Right Forms!
Posted by NIH Staff on May 12, 2020.

"NIH is transitioning to an updated set of application forms we refer to as FORMS-F. Use FORMS-F forms for grant application due dates on or after May 25, 2020 and FORMS-E for due dates on or before May 24, 2020.

For tips on navigating this transition, see our previous Nexus post, guide notices (NOT-OD-20-026, NOT-OD-20-077), and the resources listed below." <<more>>

Extramural Investments in Research: FY 2019 By the Numbers
Posted by Mike Lauer on May 5, 2020.

"NIH's total budget in FY 2019 was $39.2 billion (see page 76 of the FY 2021 Congressional Justification overview for more). Of that appropriation, $29.466 billion was awarded to 55,012 new and renewed meritorious extramural grants (excludes research and development contracts). This investment was up $2.354 billion from FY 2018 (8.68% increase), with 2,369 more grants funded (4.50% increase). 2,738 organizations received these awards—ranging from academic universities, hospitals, small businesses, and others—throughout the U.S. and internationally. Georgia Tech researcher pays a high price for mismanaging an NSF grant
From *AAAS Science Magazine* by Jeffrey Mervis. Posted April 29, 2020.

"In December 2019, Lee pleaded guilty to federal criminal charges of providing false information to the National Science Foundation (NSF) on a project it has been funding for more than 10 years. She assumed taking that step would allow her to get on with her life. 'I'm good with math, and I like spending time with my students,' she says. 'I thought the plea would let me go back to work.'

"But it's not that simple. On 21 May, a judge is scheduled to impose her sentence. And being convicted of a felony is likely to trigger a review by Georgia Tech officials that could end in the university revoking her tenure and dismissing her. The circumstances that have led Lee to simultaneously be both a felon and a high-profile coronavirus warrior may well be unique. (NSF officials say they don't keep statistics about the prevalence of fraud in the program that funded Lee.) Even so, her case is a sobering reminder to the community that, although institutions are

responsible for ensuring that every grant they receive is properly managed, individual scientists may face serious consequences if they don't follow the rules. Such missteps have jeopardized Lee's career—and even her freedom." <<more>>

Pandemic Could Add Noise to Clinical Trial Data
From *AAAS Science Magazine* by Kelly Servick. Posted on May 15, 2020.

"Hundreds of clinical trials have paused new enrollment during the pandemic (Science, 20 March, p. 1289). But like Cohen, investigators across diverse fields have managed to keep treating enrolled patients who might benefit from experimental therapies. Now, research teams are contemplating how the pandemic might insert itself into their results. Could effects of the outbreak—including less consistent follow-up visits, reduced movement, or poorer mental or physical health—blur the statistical signals of a treatment's risks and benefits?" <<more>>

NIH's axing of bat coronavirus grant a 'horrible precedent' and might break rules, critics say
From *AAAS Science Magazine* by Kelly Servick. Posted on May 15, 2020

"The research community is reacting with alarm and anger to the National Institutes of Health's (NIH's) abrupt and unusual termination of a grant supporting research in China on how coronaviruses—such as the one causing the current pandemic—move from bats to humans.

"The agency axed the grant last week, after conservative U.S. politicians and media repeatedly suggested—without evidence—that the pandemic severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) escaped from a laboratory in Wuhan, China, that employs a Chinese virologist who had been receiving funding from the grant. The termination, which some analysts believe might violate regulations governing NIH, also came 7 days after President Donald Trump, asked about the project at a press conference, said: "We will end that grant very quickly." <<more>>

The Untold Story of the Birth of Social Distancing
From The New York Times, by Eric Lipton and Jennifer Steinhauer. Published on April 22, 2020.

"WASHINGTON — Fourteen years ago, two federal government doctors, Richard Hatchett and Carter Mecher, met with a colleague at a burger joint in suburban Washington for a final review of a proposal they knew would be treated like a piñata: telling Americans to stay home from work and school the next time the country was hit by a deadly pandemic.

"When they presented their plan not long after, it was met with skepticism and a degree of ridicule by senior officials, who like others in the United States had grown accustomed to relying on the pharmaceutical industry, with its ever-growing array of new treatments, to confront evolving health challenges.

"Drs. Hatchett and Mecher were proposing instead that Americans in some places might have to turn back to an approach, self-isolation, first widely employed in the Middle Ages.

"How that idea — born out of a request by President George W. Bush to ensure the nation was better prepared for the next contagious disease outbreak — became the heart of the national playbook for responding to a pandemic is one of the untold stories of the coronavirus crisis." <<more>>

Grant Opportunities

General Interests and cross-disciplinary

Library of Congress
Kluge Center Fellowship
Deadline: July 15, 2020
"The Kluge Center encourages humanistic and social science research that makes use of the Library's large and varied collections.

Grant Opportunities

Interdisciplinary and cross-cultural research is particularly welcome in the Kluge Fellowship program. The fellowship is open to scholars in the humanities and social sciences with special consideration given to those whose projects demonstrate relevance to contemporary challenges." <<more>>

Lemelson Center for the Study of Invention and Innovation
Arthur Molella Distinguished Fellowship
Deadline: August 1, 2020
"The Lemelson Center for the Study of Invention and Innovation is accepting applications for the Arthur Molella Distinguished Fellowship at the Smithsonian Institution's National Museum of American History (NMAH). We seek to appoint an experienced author or senior scholar (at the associate/full/emeritus professor level or equivalent) from the history of technology, science and technology studies, business history, museum studies, STEAM education, or an allied field (Smithsonian staff are not eligible). The specific arrangement is flexible: the Molella Distinguished Fellow may use the funds as a sabbatical supplement; for several short-duration visits; for a single residency focused on research and writing; or for a series of lectures leading to a major publication." <<more>>

American Academy of Religion
Collaborative Research Grant
Deadline: August 1, 2020
"Collaborative research grants are intended to stimulate cooperative research among scholars who have a focus on a clearly identified research project. They may also be used for interdisciplinary work with scholars outside the field of religion, especially when such work shows promise of continuing beyond the year funded. Collaborative project proposals are expected to describe plans for having the results of the research published."

Fritz Thyssen Foundation
Conference Grants
Deadline: August 31, 2020
"The Fritz Thyssen Foundation promotes scientific events, in particular smaller national and international conferences with the aim of enabling the discussion and processing of specific scientific questions as well as the thematically oriented cooperation and networking of scientists in the narrower subject area or between different subject areas. " <<more>>

University of Sydney
Visiting Research Fellowship Scheme
Deadline: August 31, 2020
"This scheme enables local and international scholars to undertake research for periods of normally no less than a fortnight and no more than six months in a well-supported and engaged research environment. We welcome applications from researchers at every career stage from emergent to senior scholars. Fellows are expected to participate in the research cultures of the School and the Faculty through such activities as attending relevant research seminars, presenting work-in-progress and leading graduate masterclasses." <<more>>

ARTS AND HUMANITIES

GLAGS Center for LGBTQ Studies
Scholar in Residence Fellowship
Deadline: July 1, 2020
"The CLAGS Residency Fellowship Program assists scholars and professionals whose research on the LGBTQ experience can benefit from access to CLAGS's resources and its location in midtown Manhattan at the Graduate Center, City University of New York. The Scholars-in-Residence Program is designed to (1) encourage research and writing on the history, literature and culture of the of the LGBTQ community or other dynamic projects relating to the LGBTQ experience, broadly conceived; (2) to promote and facilitate interaction

among the participants including fellows funded by other sources; (3) to facilitate the dissemination of the researcher's findings through lectures via CLAGS's ongoing Events Series."

New York Public Library
Martin Duberman Visiting Fellowship
Deadline: July 31, 2020
"The Martin Duberman Visiting Scholar program at The New York Public Library fosters excellence in LGBT studies by providing funds for scholars to do research in the Library's preeminent LGBT historical collections. The fellowship is open to both academic faculty and independent scholars who have made a significant contribution to the field. Applications for the fellowship are evaluated based on the following criteria:
Significant scholarly achievement or demonstrated potential
Compelling research proposal that makes a contribution to the field of LGBT studies
Archival-based research that clearly requires extended use of NYPL's collection
Demonstrated financial need and its location in midtown Manhattan." <<more>>

MLA
Humanities Innovation Grants
Deadline: August 17, 2020
"The Modern Language Association awards $3,000 grants every year to support the development of courses and other educational programs in English, languages, and related disciplines that build enrollments and revitalize student interest in the humanities. The grant seeks to recognize interdisciplinary and collaborative projects that engage with questions of global, regional, or local significance; that have the potential to offer transformative experiences for learners; that foster lasting connections between individuals and their communities; and that draw on innovative and effective pedagogical practices. Grant recipients will be honored at the awards ceremony during the MLA convention and will be invited to

present their project in the convention's Language and Literature Program Innovation Room. "

Subventions are granted for any topics of musicological research." <<more>>

Social Sciences

William T. Grant Foundation
William T. Grant Scholars Program
Deadline: July 1, 2020
"The William T. Grant Scholars Program supports career development for promising early-career researchers. The program funds five-year research and mentoring plans that significantly expand researchers' expertise in new disciplines, methods, and content areas. Applicants should have a track record of conducting high-quality research and an interest in pursuing a significant shift in their trajectories as researchers. We recognize that early-career researchers are rarely given incentives or support to take measured risks in their work, so this award includes a mentoring component, as well as a supportive academic community."
<<more>>

The Leakey Foundation
Research Grants
Deadline: July 15, 2020
"The Leakey Foundation exclusively funds research related to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation. The majority of The Leakey Foundation's Research Grants awarded to doctoral students are in the $3,000-$15,000 range. Larger grants given to senior scientists and post-doctoral researchers may be funded up to $25,000." <<more>>

National Science Foundation
Linguistics
Deadline: July 15, 2020
"The Linguistics Program supports basic science in the domain of human language, encompassing investigations of the grammatical properties of individual human languages, and of natural language in general. Research areas include syntax, semantics, morphology, phonetics, and phonology. Because NSF's mandate is to support basic research, the Linguistics Program does not fund research that takes as its primary goal improved clinical practice or applied policy, nor does it support work to develop or assess pedagogical methods or tools for language instruction. The Linguistics Program accepts proposals for a variety of project types: research proposals from scholars with PhDs or equivalent degrees, proposals for Doctoral Dissertation Research Improvement (LING-DDRI) awards, and CAREER proposals."

National Science Foundation
Biological Anthropology
Deadline: July 20, 2020
"The Biological Anthropology Program supports basic research in areas related to human evolution and contemporary human biological variation. Research areas supported by the program include, but are not limited to, human genetic variation, human and nonhuman primate ecology and adaptability, human osteology and bone biology, human and nonhuman primate paleontology, functional anatomy, and primate socioecology. Grants supported in these areas are united by an underlying evolutionary framework, and often by a consideration of adaptation as a central theoretical theme. Proposals may also have a biocultural or bioarchaeological orientation." <<more>>

Brady Education Foundation
Grants
Deadline: August 1, 2020
"The Foundation is currently accepting proposals focused on evaluating programs that have the potential of helping to close the opportunity and resulting achievement gaps associated with race and family income. The primary aim must concern evaluating the effectiveness of programs designed to promote positive cognitive and/or achievement outcomes for children (birth through 18 years) from underserved groups and/or low-resourced communities (minoritized ethnic groups, low-income families)." <<more>>

National Science Foundation
Perception, Action & Cognition
Deadline: August 1, 2020
"The PAC program funds theoretically motivated research on a wide-range of topic areas related to typical human behavior with particular focus on

perceptual, motor, and cognitive processes and their interactions. Central research topics for consideration by the program include (but are not limited to) vision, audition, haptics, attention, memory, written and spoken language, spatial cognition, motor control, categorization, reasoning, and concept formation. Of particular interest are emerging areas, such as the interaction of sleep or emotion with cognitive or perceptual processes, epigenetics of cognition, computational models of cognition, and cross-modal and multimodal processing." <<more>>

The Harry Frank Guggenheim Foundation Research Grants
Deadline: August 1, 2020
"The foundation welcomes proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world. Questions that interest the foundation concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships, among other subjects." <<more>>

Improving Undergraduate STEM Education: Education and Human Resources (IUSE)
Deadline: August 4, 2020
"The IUSE: EHR is a core NSF STEM education program that seeks to promote novel, creative, and transformative approaches to generating and using new knowledge about STEM teaching and learning to improve STEM education for undergraduate students. NSF places high value on educating students to be leaders and innovators in emerging and rapidly changing STEM fields as well as educating a scientifically literate public. In pursuit of this goal, IUSE: EHR supports projects that seek to bring recent advances in STEM knowledge into undergraduate education, that adapt, improve,

and incorporate evidence-based practices into STEM teaching and learning, and that lay the groundwork for institutional improvement in STEM education." <<more>>

National Science Foundation
Innovative Technology Experiences for Students and Teachers (ITEST)
Deadline: August 14, 2020
"ITEST seeks proposals that pursue innovative instructional approaches and practices in formal and informal learning environments, in close collaboration with strategic partnerships. ITEST proposals should broaden participation of all students, particularly those in underrepresented and underserved groups in STEM fields and related education and workforce domains. ITEST supports three types of projects: (1) Exploring Theory and Design Principles (ETD); (2) Developing and Testing Innovations (DTI); and (3) Scaling, Expanding, and Iterating Innovations (SEI). ITEST also supports Synthesis and Conference proposals." <<more>>

Sociological Initiatives Foundation
Deadline: August 14, 2020
"The Sociological Initiatives Foundation supports social change by linking research to social action. It funds research projects that investigate laws, policies, institutions, regulations, and normative practices that may limit equality in the United States and Puerto Rico. It gives priority to projects that seek to address racism, xenophobia, classism, gender bias, exploitation, or the violation of human rights and freedoms. It also supports research that furthers language learning and behavior and its intersection with social and policy questions." <<more>>

National Science Foundation
Political Science
Deadline: August 17, 2020
"The Accountable Institutions and Behavior (AIB) Program supports basic scientific research that advances knowledge and understanding of issues broadly related to attitudes, behavior, and institutions connected to public policy and

the provision of public services. The Security and Preparedness (SAP) Program supports basic scientific research that advances knowledge and understanding of issues broadly related to global and national security. Research proposals are evaluated on the criteria of intellectual merit and broader impacts; the proposed projects are expected to be theoretically motivated, conceptually precise, methodologically rigorous, and empirically oriented." <<more>>

National Science Foundation
Sociology
Deadline: August 17, 2020
"The Sociology Program supports basic research on all forms of human social organization -- societies, institutions, groups and demography -- and processes of individual and institutional change. The Program encourages theoretically focused empirical investigations aimed at improving the explanation of fundamental social processes. Included is research on organizations and organizational behavior, population dynamics, social movements, social groups, labor force participation, stratification and mobility, family, social networks, socialization, gender, race and the sociology of science and technology. The Program supports both original data collections and secondary data analysis that use the full range of quantitative and qualitative methodological tools. Theoretically grounded projects that offer methodological innovations and improvements for data collection and analysis are also welcomed."

Deadline: July 15, 2020
"The Leakey Foundation exclusively funds research related to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation. The majority of The Leakey Foundation's Research Grants awarded to doctoral students are in the $3,000-$15,000 range. Larger grants given to senior scientists and post-doctoral researchers may be funded up to $25,000." <<more>>

STEM
(SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS)

American Association for the Advancement of Science
Early Career Award for Public Engagement with Science
Deadline: June 30, 2020
"The AAAS Early Career Award for Public Engagement with Science, established in 2010, recognizes early-career scientists and engineers who demonstrate excellence in their contribution to public engagement with science activities. A monetary prize of $5,000, a commemorative plaque, complimentary registration to the AAAS Annual Meeting, and reimbursement for reasonable hotel and travel expenses to attend the AAAS Annual Meeting to receive the prize are given to the recipient." <<more>>

Organic Farming Research Foundation
Grants for Researchers
Deadline: July 23, 2020
"The Research and Education Grant Program funds projects that result in gains in farmer knowledge, awareness, skills and attitudes that are then applied to make measurable on-farm changes leading to greater sustainability. Projects may be submitted with or without an applied research component, but all projects must have an outcome-based education program for farmers." <<more>>

National Science Foundation
Career Awards Biological Sciences, Computer & Information Science & Engineering, Education & Human Resources
Deadline: July 27, 2020
"The Faculty Early Career Development (CAREER) Program is a Foundation-wide activity that offers the National Science Foundation's most prestigious awards in support of early-career faculty who have the potential to serve as academic role models in research and education and to lead advances in the mission of their department or organization. Activities pursued by early-career faculty should build a firm foundation for a lifetime of leadership in integrating education and research. NSF encourages submission of CAREER proposals from early-career faculty at all CAREER-eligible organizations and especially encourages women, members of underrepresented minority groups, and persons with disabilities to apply." <<more>>

National Science Foundation
Career Awards Geoscience, Mathematics, Social, Behavioral & Economic Sciences

National Science Foundation
Opportunities for Promoting Understanding through Synthesis (OPUS)
Deadline: August 3, 2020
"The OPUS program provides an opportunity for an individual or a group of investigators to revisit and synthesize a significant body of their prior research or data they have previously collected to enable new understanding. This program is appropriate for scientists at any career stage and for any synthetic activities that aim to produce unique, integrated insight useful to the scientific community, now and in the future. All four clusters within the Division of Environmental Biology (Ecosystem Science, Evolutionary Processes, Population and Community Ecology, and Systematics and Biodiversity Science) encourage the submission of OPUS proposals." <<more>>

Engineering Information Foundation
Women in Engineering Grant Program
Deadline: August 31, 2020
"The Foundation is interested in funding programs in the following areas: (1) Programs to Encourage Middle School Girls in Engineering conducted by engineering educators and others that encourage them to prepare for and undertake careers in engineering. (2) Programs designed to improve the retention rate of undergraduate women in engineering. These may cover such diverse areas as classroom, climate, learning behaviors, classroom pedagogies and academic and social support programs." <<more>>

National Speleological Society
International Exploration Grants
Deadline: July 1, 2020
"National Speleological Society International Exploration Grants foster and encourage the work of NSS cavers in cave exploration, survey, photography and research projects around the world. Grants are given in support of group equipment for expeditions outside of the United States and its territories. Grants have varied between $200 and $1500 in past ten years and have supported caving on 6 continents by dozens of US cavers. Projects have included work in Mexico, Cuba, the Dominican Republic, Egypt, Borneo, Chile, Nepal, China, and many more countries. As few as three and as many as twelve grants have been given in a single year." <<more>>

John and Polly Sparks Foundation
Grants
Deadline: July 1, 2020
Areas of interest are "Medical research and care for the treatment, prevention and cure of mental illness, especially as it relates to infants and for the prevention and treatment of substance abuse" & "Housing for children and adults; relief during times of crisis; and assistance with health and aging issues." <<more>>

National Science Foundation
Developmental Science
Deadline: July 15, 2020
"DS supports research that addresses developmental processes within the domains of cognitive, social, emotional, and motor development across the lifespan by working with any appropriate populations for the topics of interest including infants, children, adolescents, adults, and non-human animals. The program also

supports research investigating factors that affect developmental change including family, peers, school, community, culture, media, physical, genetic, and epigenetic influences." <<more>>

American Psychological Foundation
APA Travel Grants for US Psychologists to Attend International Conferences
Deadline: July 15, 2020
"This award provides a limited number of grants of up to $350 to cover or partially cover conference registration fees at international conferences held outside the United States. Only APA and APAGS members living in the U.S. are eligible to apply for the award." <<more>>

National Science Foundation
Biological Anthropology
Deadline: July 20, 2020
"The Biological Anthropology Program supports basic research in areas related to human evolution and contemporary human biological variation. Research areas supported by the program include, but are not limited to, human genetic variation, human and nonhuman primate ecology and adaptability, human osteology and bone biology, human and nonhuman primate paleontology, functional anatomy, and primate socioecology. Grants supported in these areas are united by an underlying evolutionary framework, and often by a consideration of adaptation as a central theoretical theme. Proposals may also have a biocultural or bioarchaeological orientation." <<more>>

Arnold and Mabel Beckman Foundation
Young Investigators Program
Deadline: August 3, 2020
"The Beckman Young Investigator (BYI) Program provides research support to the most promising young faculty members in the early stages of their academic careers in the chemical and life sciences, particularly to foster the invention of methods, instruments and materials that will open up new avenues of research in science." <<more>>

National Science Foundation
Opportunities for Promoting Understanding through Synthesis (OPUS)
Deadline: August 3, 2020
"The OPUS program provides an opportunity for an individual or a group of investigators to revisit and synthesize a significant body of their prior research or data they have previously collected to enable new understanding. National Science Foundation
Cognitive Neuroscience
Deadline: August 13, 2020
"The Cognitive Neuroscience Program seeks highly innovative proposals aimed at advancing a rigorous understanding of the neural mechanisms of human cognition. Central research topics for consideration by the program include attention, learning, memory, decision-making, language, social cognition, and emotions. Proposals with animal models are appropriate only if they include a comparative element with human subjects." <<more>>

American Psychiatric Association
Kempf Fund Award
Deadline: August 15, 2020
"The Kempf Fund Award for Research Development in Psychobiological Psychiatry, established in 1988, recognizes a senior researcher who has made a significant contribution to research on the causes and treatment of schizophrenia as both a researcher and a mentor. An award is also made to support the career development of a young research psychiatrist working in a mentor-trainee relationship with the award winner. Funded by the estate of Dorothy C. Kempf." <<more>>
